Teacher "Creature" Project Checklist:
4 Weeks of Project Work Time

1. _____ To save time Roxy created a Google FORM & sent it to your teacher(s) and Administrators to better understand them and inspire many ideas for the project. Please check their responses linked on the Digital Art DP for project inspiration!

2. _____ Brainstorm all possible "creatures" your teacher could become below:

_____   _____

_____   _____

_____   _____

3. _____ Brainstorm all possible environments/landscapes that could be the main background:

_____   _____

_____   _____

_____   _____

4. _____ Create a **new Photoshop Doc: W 14 inches X H 8.5 inches: RES 300 pixels/inch**

- Title it: "Teacher Creature by *your name here* V1"
- Save AS it to Teacher Creature folder inside your Digital Art folder **(psd only for now, not jpeg)**

- **MOVE ALL IMAGES TO THIS DOCUMENT, it is your MAIN PROJECT**
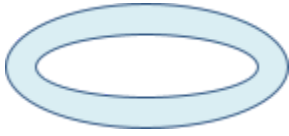

5. _____ Google Search LARGE images you may need

- Create a "TEACHER CREATURE" Folder inside your Digital Art folder on the GDrive
- Be sure **to save as the LARGE Image/Photo**, not the *thumbnail* to your "Teacher Creature Project" folder inside your Digital Art Folder
- You will need all original images for the proof sheet

6. _____ Save a Teacher's photo from the shared folder onto your Drive OR photograph the teacher to better fit the perspective of the body of the creature.

7. _____ SEE back side for how to save multiple copies while you work. **DO NOT save as JPEG UNTIL Completely DONE!!! You will share the FINAL JPEG on APRIL 27th for PRINTING & DISPERSING ART.**

Name: _____   POD #: _____

CIRCLE the following PS tools you used to create this digital art piece:

Selection Tools Lasso(s)   Selection Tools   Quick Select tool   Adjustment Layer   Filters

Magic Wand Tool   Refine Edge   Paint Brushes   Clone Stamp / Patch Tool   Eraser   Mask Tool

Gradient   Paint Bucket   Blur   Smudge   Dodge   Burn   Custom Shape(s)   Color Picker

Other tools or filters you may have used:

_____   _____

_____   _____

Other important items to keep in mind while working on this project:

• Try to <u>keep 1 image per layer</u> - merge later if you need to OR

    <u>SAVE AS an extra JPEG to flatten image along the process if you need to combine layers</u>

• SAVE AS multiple Photoshop Document versions, examples:

    · Teacher Creature by *yournamehere* v1.psd

    · Teacher Creature by *yournamehere* v2.psd

    · Teacher Creature by *yournamehere* v3.psd

USE RESOURCES when in doubt…

- **Watch YouTube tutorials for questions about how to do something simple and/or complex in Adobe Photoshop before asking your teacher.**

- **Teacher Office Hours:** Mon & Tues LUNCH *by appointment please*

Name: _____   POD #: _____

	Novice *(New to PS)*	**Apprentice** *(Basic Skills)*	**Practitioner** *(Hirable)*	**E X P E R T**
Selection & Refine Edge Tool(s) *(Alt +Ctrl +R)*	Copies & Pastes Teacher's face from original background onto a new body. Edges are choppy, unrefined & easily seen.	Copies & Pastes & Refines all edges of Teacher's face and other objects with basic (*feathered*) refined edges.	Copies & Pastes & Refines all edges of Teacher's face and other objects with **advanced** (*radius, contrast, smooth, etc…*) **refinements to the edge** of the selection.	Meets all of Practitioner Column **PLUS** parts of the creature are placed below and above the teacher face layer for realistic results.
Hue/Saturation/ ADJUST-MENTS *(Ctrl + U)*	**No altering** of original hues or saturations. Images are chosen because of similar skin tones and saturations.	There is an **obvious attempt** to make the hue and saturation of the teacher's face match the creature's body.	Hue, Saturation, and Lighting of face match the body/object **without being able to tell where** the face ends and the body/object begins.	Practitioner **PLUS** Texture (*wrinkles, fur, scales, etc.*) is repeated onto the face from the original creature or another one.
# of Images & Layers **Open Image** *(Ctrl +O)*	**3 Images Total-** ● Teacher's Face ● Body ● Background	**6 Images Total-** ● Teacher's Face ● New Body ● Top hat, hair piece, etc… ● Background	**8 Images Total-** ● Teacher's Face ● New Body ● Top hat, hair piece, etc… ● Background ● Another object that adds to overall theme	Practitioner **PLUS** ● **10+ Images Total-** ● **Layer blend mode** *other than normal* (*darken, lighten, overlay, etc*)
Text *(T)*	Your name randomly typed on the project as your signature	Your name typed as your signature creatively spot on project, but **does not become the point of emphasis**.	Your name typed in a creative spot on project, but **does not become the point of emphasis**, and is **transformed to fit** this specific space perfectly.	Practitioner **PLUS** Use of **Layer Styles** (*Drop Shadows, gradient, color, bevel emboss, or pattern overlay, etc.*)
Saving Correctly (Project & Proof Sheet) ***Save*** *(Ctrl +S)* ***Save AS*** *(Shift +Ctrl +S)*	Final project saved somewhere. You aren't sure where though. SIZE: **RANDOMLY SIZED**	Final project saved as : "random title" onto either your server or google drive, but not both. SIZE: **14 X 8.5 in @ 72 ppi**	Final project saved as: "Teacher Creature by *yournamehere* FINAL.**psd**" **AND as a JPEG** into your Drive File Stream SIZE: **14 X 8.5 in @ 300 ppi**	Final project saved as: "Teacher Creature by *yournamehere* FINAL.**psd**" **AND as a JPEG** into your Google Drive File Stream AND Shared with Teacher for PRINTING SIZE: **14 X 8.5 in @ 300 ppi**
